ABOUT ME

I am a junior Front-End developer. I have experience with modern web technologies, so I can build the required software in a professional way with clean and reusable code.

TOOLS AND TECHNOLOGIES

- | | | | |
|-------------|--------------|---------------|---------------|
| • HTML | • CSS | • Sass | • TailwindCSS |
| • Bootstrap | • Javascript | • React Query | • Typescript |
| • React.js | • Github | • Vite.js | • Python |
| • Next.js | • Redux | • Zustand | • Figma |

SOFT SKILLS

- | | | |
|------------------------|----------------------------------|--------------------------|
| • Interpersonal skills | • Excellent verbal communication | • Problem solving skills |
| • Time Management | • Attention to performance | • Customer Focus |

Projects

Porty – Hotel Booking Web App | React.js, TypeScript, React Query, React Hook Form, Zod, Tailwind CSS

Live Demo: <https://porty.azapdev.workers.dev/>

- Developed a responsive hotel booking web app using **React.js** and **TypeScript** for strict type safety.
- Integrated **React Query** for seamless data fetching and caching from local JSON structures.
- Implemented booking forms and filtering using **React Hook Form** paired with **Zod** schema validation.
- Designed dynamic, responsive UI layouts using **Tailwind CSS** across all screen sizes.

The Mighty Spice Co. – Indian Restaurant Web App | Next.js, Redux Toolkit, React Query, Tailwind CSS

Live Demo : <https://themightyspiceco.azapdev.workers.dev/>

Built a modern Indian restaurant web application using **Next.js** for optimized page navigation and client-side rendering.

- Managed global state using **Redux Toolkit** to handle complex shopping cart logic, items management, and ordering flows.
- Integrated **React Query** for asynchronous data fetching and caching from JSON data sources.
- Designed responsive UI components styled with **Tailwind CSS** for a clean visual experience across all screen sizes.

EDUCATION AND CERTIFICATIONS

Faculty of Computers and Information science | Mansoura University (2024 - 2028)
I'm expected to graduate from the Faculty of Computers and Information at Mansoura University, majoring in Computer Science.
